1 Click "Report"

The screenshot shows the software's main menu bar with options: Filters, Report, Highlight, Outline, and All sheets. The 'Report' menu is open, displaying a 'Report type' dropdown with the following options: No report, Standard report (workbook), and Hyperlinked report (workbook). Below the dropdown, a grid of data is visible, with the 'Customers by Countries' row highlighted. A red arrow points from the 'Report' button to the dropdown menu.

2 Select report type

The screenshot displays the 'Difference Report' window. At the top, it shows the report title 'Difference Report' and the date '2018-07-01 12:21:38'. Below this, there are sections for 'Files', 'Settings', and 'Compared sheets'. The 'Compared sheets' section lists various sheets from two workbooks, such as 'Customer List', 'Customer Profile', and 'Sales Summary'. Below the list, a table shows the differences between the sheets. A red arrow points to the 'Report' button in the previous screenshot, and another red arrow points to the 'Report is instantly generated' text in this screenshot.
